

## VACCINATION FOR THE STUDENTS

**COMPULSORY VACCINATION:** - When you come to IISER –TVM you will be staying in a hostel in close proximity to many other students. Such environments pose a risk of spread of various infectious diseases like mumps, measles, chicken pox, etc. As a result, it is compulsory that all students be vaccinated against these diseases, and others, in the following list.

1. Typhoid.
2. Hepatitis A and B.
3. Chickenpox (If there is no history of chickenpox in past).

**It is more expensive, due to logistics and location reasons, if the vaccines are administered after you come to IISER Thiruvananthapuram.**

**So it is mandatory that you get vaccinated before you come to IISER and produce the vaccination certificates to the authorities on arrival.** Vaccination requirement is for both your protection and the protection of other students. Please remember that your registration formalities may be on hold if vaccination requirements are not met.

INDIAN INSTITUTE OF SCIENCE EDUCATION & RESEARCH (IISER-TVM) HOSPITAL

Date: \_\_\_\_\_
