Introduction

IISER Thiruvananthapuram is inviting proposals for a rate contract for providing structured LAN cabling at Institute campus situated at Maruthamala, Vithura for providing additional network points inside faculty offices and research labs and other locations as and when required. This rate contract will be valid up to 30-06-2025.

Eligibility Criteria

1. The vendor should be a registered company and in operations for last 3 years. Certificate in this regard should be submitted.
2. The vendor should have successfully installed at least 100 LAN points in one organization in the last 3 years. In this regard, certificate from the customer should be submitted.
3. The vendor should have office in Thiruvananthapuram District, Kerala with staff for providing immediate assistance.

Evaluation of bids

There will be two stage evaluation. Technical and Financial bids should be submitted in the given formats only. The vendor should fulfill the following criteria to qualify technical evaluation.

- Certificate showing that the company is in operation for last 3 years.
- Certificate from a customer having installed 100 LAN points by the vendor in the last three years
- Certificate showing office address in Thiruvananthapuram District, Kerala with staff information
- Filled in Annexure A
- Filled in Annexure B in a separate cover

Financial bids of those vendors who comply Annexure A and submit the required certificates will only be opened. The total of unit price of all items will be used to determine L1 vendor

Scope of the work

The site of the work is IISER Thiruvananthapuram, Maruthamala, Vithura. The projected requirement is about 250 LAN points spread across the campus including the building terraces. IISER Thiruvananthapuram is not obliged to implement the projected requirement as such. The vendor will be notified as and when additional LAN outlets are required. The vendor should be able to supply and install structured cabling materials and start the work in 5 working days of notification and should be present on every working day thereafter at the site until completion of the work. As part of the cable laying, the vendor has to arrange for drilling/cutting/patching as required. The work should be done in coordination with other departments and/or contractors of the Institute. Termination number tags should be provided at both the ends of the cabling. The supplied items should meet the specification mentioned in the item description. No advance will be paid for the supply/installation. The payment will be processed after satisfactory completion of supply, installation and certification. The OEM's warranty on all items should be serviced by the vendor. Defect liability for installation and other works will be for a period of one year from the date of commissioning. The invoice for the work will be treated as the warranty certificate.
